

Project: Ramada Encore Hotel
Location: Warrington
Architect: Ica Architects
Structural Engineer: GHW Consulting Engineers
Main Contractor: Fitzpatrick Contractors Ltd

The new £8m Ramada Encore Warrington, located on Birchwood Business Park, is a new hotel with a simple concept of being fresh, stylish vibrant and upbeat whilst offering comfortable contemporary accommodation.

This hotel located near Warrington town centre provides 103 ensuite bedrooms, and 2 meeting rooms over 4 stories, with all public areas and bedrooms being fully air-conditioned.

The structure was erected by PCs within 9 weeks using twin wall precast wall panels which were manufactured to provide a wall ready to accept minimal painting to achieve finishes with a great appearance.
